Empowering Women Through Midlife: Dr. Sonamm Tiwari's Holistic Menopause Program is Transforming Care in Mumbai

In India, where menopause remains largely under-discussed and often misunderstood, countless women suffer in silence through one of the most transformative stages of life. Symptoms like hot flashes, mood swings, joint pain, weight gain, and insomnia are frequently dismissed as “normal,” leaving women without adequate care or support. But Dr. Sonamm Tiwari, a leading gynecologist based in Mumbai and Navi Mumbai, is on a mission to change this narrative.

With her pioneering menopause management program, Dr. Sonamm Tiwari is redefining how women experience midlife. Her approach combines personalized medicine, nutritional support, mental health counseling, and preventive care—all tailored to help women navigate this phase with confidence, strength, and clarity.

“Menopause is not a disease—it’s a new chapter,” says Dr. Sonamm Tiwari. “Yet many women are reluctant to talk about it. That’s where the problem begins. Ignoring menopause symptoms can lead to serious health complications like osteoporosis, cardiovascular disease, and depression. My goal is to create a safe space where women feel empowered to prioritize their health.”

Understanding Menopause Beyond the Myths

Menopause typically occurs between the ages of 45 and 55, but the transition—known as perimenopause—can last up to a decade. During this time, declining hormone levels can cause a range of symptoms that affect physical, mental, and emotional health. Despite this, most Indian women still lack access to informed, compassionate care.

Dr. Sonamm Tiwari’s program begins with an in-depth consultation where she carefully listens to each woman’s unique story. This is followed by a personalized care plan that considers medical history, lifestyle, and symptom severity. Whether it’s brain fog, sleep disturbances, or low libido, Dr. Tiwari believes no concern is too small.

Hormonal Support and Thoughtful Alternatives

For women with severe symptoms, Dr. Sonamm Tiwari offers Hormone Replacement Therapy (HRT)—but only when clinically appropriate. “HRT can be life-changing, but it’s not for everyone. I believe in educating my patients about the benefits and risks, and making decisions together,” she explains.

Beyond HRT, her program also includes non-hormonal treatments like herbal remedies, dietary changes, and guided exercise routines. Nutritional counseling plays a major role, with a focus on calcium-rich foods, vitamin D, and avoiding symptom triggers like caffeine or spicy foods.

Prioritizing Bone, Heart, and Mental Health

Dr. Sonamm Tiwari emphasizes the importance of addressing long-term health risks such as osteoporosis and heart disease—both of which become more likely after menopause. Her program includes recommendations for bone density screenings, weight-bearing exercises, and supplement plans to preserve strength and mobility.

Mental health is another cornerstone of her approach. “Many women report anxiety, restlessness, or depression during menopause, often amplified by societal expectations and family responsibilities,” says Dr. Tiwari. She integrates counseling, stress reduction techniques, and mindfulness practices to help women manage emotional changes with resilience and clarity.

A Safe, Inclusive Space for Every Woman

What sets Dr. Sonamm Tiwari apart is her unwavering commitment to creating a supportive, non-judgmental environment where women feel heard. Whether it’s emotional well-being, sleep issues, or sexual health, every concern is treated with empathy and expertise.

“This is not just about treating symptoms. It’s about supporting women through one of life’s most powerful transitions,” she emphasizes.

Taking the First Step

Dr. Sonamm Tiwari's holistic menopause program is a call to action for women across Mumbai and beyond. By blending medical insight with compassionate care, she is helping women transform menopause from a time of confusion into a season of renewal.
